

*President Trump Threatened to Destroy all of North Korea  
A country of 25 million people*

## **Defusing Another Korean War Before It Starts**

### **WHAT IS THE US MILITARY DOING ON THE ISLAND OF JEJU?**

Peace Activist and singer Joyakgol will speak about South Korean resistance to the threat of nuclear war and the struggle of the people of Jeju Island to shut down the US Naval Base on their beautiful island.

Joyakgol, whose work often focuses on conserving marine life, will cover demilitarization of the region and removal of the THAAD anti-missile, first strike batteries in Korea and bringing peace to Northeast Asia.

The US forced South Korea to destroy a World Heritage Site on Jeju Island to build a Naval Base that can accommodate more than 20 warships. The US, which houses nearly 30,000 troops in South Korea, frequently runs nuclear war exercises, including stealth bombers approaching North Korea to practice dropping hydrogen bombs and mock Naval missile attacks on the North.

What can we do to stop the madness driving to nuclear war on the Korean Peninsula?
